Pai Chung-hsi Orders Evacuation FOOCHOW LOSS ADMITTED

(From Our Own Correspondent)

Canton, August 18. The war situation in South China developed unfavourably for the Nationalists during the past twenty-four hours. One report said Tayu in South Kiangsi was evacuated by Government troops and Yutu, 30 miles East of Kanchow, was captured by the Reds. People in Shaokwan, a railway town in North Kwangtung are beginning to evacuate.

************* Leader Of Syrian Coup Shot Dead

Cairo, August 18. Reports from Damascus today said Colonel Sami el Hinngoui, leader of the latest coup d'état in Syria, has been shot and killed by assassins.

El Hinnaoui had been a close friend of Colonel Husmi Zaim and had helped him to stage his March coup. However, he broke with Zaim over the latter's dictatorial rule.

El Hinnaoui was 60 years old. He was a tall man with heavy jowls and wore thick, dark-rimmed glasses. After turning over the government-to-the new President he announced that he was returning to the army.—United.

New Zealand Sending Planes To Hong Kong

Wellington, August 18.
New Zenland RAF planes are to help to reinforce Hong Kong. Three Dakota transports are to be sent, the Prime Minister, Mr. Peler Fraser, announced today.

He told the House of Representatives that the flight, with 57 officers and men, was being supplied at the request of the British Government.

It would be based on Singapore and employed on transport duties between there and Hong Kong. The men are expected to leave for Singapore early next month. Mr. Fraser said that discussions had also been

held with the British authorities concerning other forms of assistance. Arrangements were being made to send three New Zenland frigates to Hong Kong if required.-Reuter-

Mr. F.D. Hammond represented Reiss, Bradley & Company and Jardines were represented Mr. P. A. L. Vine.

Yesterday one of Mr. Hammond's witnesses said that the crossed guns trade mark was registered in the Colony in 1945 and later during the early part of 1949 it was again registered with

the local Government. The witness, Mr. Lo Koon-nuk of the Wing Hing Cheung, Firm further said that the trade labels on the blanket which was one o' the businesses of his firm, were sewn on in England, He also testified that there was, to his knowledge, no loose trade labe of this kind in the Colony.

Blanket Deals

Another witness of the same prosecution who claimed that he was the Manager of the Wing Hing Cheung Firm, told the cour' that he had seen the crossed guns trade label. He also went as fa as to say that his firm had seldom dealt in the blankets of which the crossed guns is the trade mark. Later, under cross-examina-

One of the important differences between Combustion and fission is this: in combustion some of the heat released must be used to keep the chain reaction, going; in a fission chain-reaction, the heat released is not necessary to a continuation of the process, it is rather a by-product.

The all-important agents here are the inconceivably tiny particles known as neutrons, which can cause atoms to fission, or split, and which are released from fissioning atoms in sufficient quantities to keep the process going.

Surrender Of National Sovereignty Premature WARNING MORRISON'S

Strasbourg, August 17. Mr. Winston Churchill today joined the "hasten slowly" camp at the European Assembly, counselling moderation.

He described as premature any immediate steps to seek the surrender of

national sovereignty in furthering European unity. The clash which many delegates had expected between Mr. Churchill and Mr. Herbert Morrison, the British Deputy Prime Minister, was thus averted.

The Hague Next Week

The Hague, August 17. The round-table conference on Indonesia will open here on August 23, it was learned on very reliable authority today.

When the leaders of the Dutch, Republican and Federalist delegations met today they agreed that next Tuesday was the most suitable opening date for the conference.

During the day the Dutch delegates met the members of the pre-Federal Government at Batavia who are now in Holland.

Remarkable Rise Europe's Birth Rate

Geneva, August 17.

A remarkable rise in Europe's post-war birth rate has gone nearly half way to make up for the loss of 15,000,000 Europeans killed during the war, according to a United Nations population study.

The study reveals that Europe's population outside Russia fell from 392,000,000 in 1938, to 371,-900,000 at the end of 1945. War losses accounted for more than 15,000,000 of these, of whom the greater part, more than 9,000,000, were civilians.

Yugoslavia's Told To Support Tito

Belgrade, August 17. Yugoslavia's Moslems—more than 1,000,000 of them-received orders today to avoid working against Marshal Tito's government.

The instructions came from Vakuf, the council of the Moslem religious community in Yugoslavia's centrally located Republic of Bosnia and Herzegovina.

(In this particular area, Islam) has been the dominant religion for nearly five centuries as a result of the Turkish invasion and the conversion of some Serbs to their falth).

On spiritual affairs, Vakuf speaks to them in Yugoslavia with much the same authority as the Pope does to the Roman Catholics. The admonition came in the wake of a trial at Sarajevo only i few days ago of 14 members of the alleged Fascist terrorist group, known as the "Young Moslems. on charges of plotting against the

London, August 17. Moscow Radio said today that American interests are trying to negotiate for Iranian uranium.

In a broadcast heard in London by a Soviet monitor, the Russian radio quoted the Teheran newspaper, "Dad," as saying that a. "certain Hotchkins" had arrived to prepare an agreement between Iran and his American company for the exploitation of uranium deposits.

The Moscow report said, "Hotchkins had worked previously at uranium mines in the Belgian Congo and is interested in mines in the area of Anarak where rich uranium deposits have been found."-United Press.

Draft Of New Hungarian Constitution

Budapest, August 17. The Hungarian Vice-Premier, Matyan Rakori, presented the draft of the new Hungarian Constitution to the National Assembly

He said it was designed to give legal sanction to the political and social conquests made by the People's Democracy and to give legal basis to all the changes which have taken place since the liberation. •

Mr. Rakosi stressed that the draft Constitution provided for measures to ensure the liberties accorded to different nationalities in Hungary (minorities). It would grant the right of asylum to foreign nationals prosecuted in their own country for their "democratic attitude or for activity almed at the liberation of the people",

The Constitution would guarantee the equality of all citizens before the law, he said, according to the Hungarian News Agency.-Reuter.

ime Declarations

(By George Tribe.)

H.B. Cave 141 19 465

Low, G.F. Blenkinsop, P. Thomp- Should a rule enforcing declarations be introduced into league cricket?

The point has been put to me on several occasions recently due, I suspect, to slow scoring in one or two league games. As an idea I understand it has been discussed by individual-members of the Central Lancashire League Committee from time to time without reaching the voting

stage. Let me say at once that I don't [favour forced declarations and for several reasons.

Let Captain Decide

A captain who wins the toss should have full advantage of all conditions, not only of the wicket. A time limit, in my view would lessen the advantage gained from calling correctly, and in conquence reduce the status of -captaincy.

After all, the initiative should be left with the captain to decide when to declare.

Langue cricket differs' from county cricket largely because of the stready existing times limit. Wickets are sporting and as a rule the successful team must attack from first ball. And by attack I mean not only hitting the ball bu by using everything you have got in bowling and fielding/ I have adopted my style to

Time To Specialise

A lot of people have the idea specialise. A league professional has to but and bowl on every type of wicket, whether or not they are suitable to his style. In the county sides the captain

A Thankless Task Obviously they are cricket lovers or they would not take on what is often a thankless task. What about a school for league umpires—a pre-senson gathering at which the experience of Test and ilest-class umpires would be

available to those who officiat in league cricket? A player has to be coached in order to attain a high standard and the eye of the umpire should be as keen and as alert as that of the player. I think we could rely more on
